

### Conflict of interest

The authors declare no potential conflict of interest, and all authors confirm accuracy.

### Funding

None.

### Ethics approval

The study was approved by the local ethics committee with the protocol number "N 0016285/22, 11.05.2022, ID 4935".

### Informed consent

Informed consent was obtained from all individual participants included in the study.

### Availability of data and materials

All data generated or analyzed during this study are included in this published article.

### Correspondence
