WINE STUDIES

Editor-in-Chief: Matteo Bordiga, Italy

Wine Studies is a new, peer-reviewed, international multidisciplinary Open-Access journal presenting and discussing new and significant researches related to the complex wine supply chain. The journal will publish original research articles as its core material supplemented by reviews, editorials and point of views in a broad area of topics including: chemistry, biochemistry, sensory science, environmental impacts, by-products valorization, microbiology, production technologies, genetics, oenology, viticulture, medicine, public health, psychology, social sciences, economics and business.
